EXPOSICIÓN
Exposición Picasso desde los ojos de un niño

SUGERENCIAS | PAGO ELECTRÓNICO | AVISOS

RADARES | SMART PARKING | TRÁFICO

360 COVER

**ACCESSIBLE COVER**

ATTRACTIVE AND CUSTOMIZABLE DESIGN

It has a visual structure, dynamic and customizable by the user.
BACKEND

Its backend is manageable, modular and scalable with an easy integration.

MacBook Air

SmartAppCity totally covers the needs of the client in a way that allows the incorporation of any its vertical solutions:

MODULAR

SCALABLE

QUICK IMPLEMENTATION AND INTEGRATION

Citizens take an active part in municipal life through suggestions and surveys.

All the city-services data are in real time.

SmartPlatformCity is our Big Data Platform that tracks, analyzes and interprets user behaviors.

TOURISM

CITIZEN PARTICIPATION

COMMERCIAL FOSTERING

REAL-TIME INFORMATION

RESERVATIONS eADMINISTRATION

DATA INTELLIGENCE

Highlights places of tourist interest for citizens and visitors.

The commerce of the city is activated through geopositioning and publication of promotions.

The citizen can make facilities reservations in an easy and simple way.

Whom are we addressing?

CITIZEN
Facilitates access to services information in real time, allows the interaction with the administration and the procedures management.

ADMINISTRATIONS
They have the possibility to show their data to the citizen and to manage all the requests sent.

SHOPS AND BUSINESSES
The App allows the city commerce to be activated through the geopositioning and launching of promotions, events and notifications.

Successfully implemented in cities like:

LOGROÑO (SPAIN)

ARNEDO (SPAIN)

GOLMAYO (SPAIN)

LEMOA (SPAIN)

LAS TABLAS DISTRICT (SPAIN)

JAÉN (SPAIN)

ANTEQUERA (SPAIN)

NAUCALPAN (MÉXICO)
